5. ACADEMIC PROGRAMMES

The relevance of an academic programme lies in its constant evolution to fit in into the current needs of the society. Without academic courses being tailor-made to suit the contemporary changes and address the challenges, they lose their significance. Keeping these aspects in mind, in the academic year 2019-20, the academic programmes at Rama Devi Women's University have been designed and developed. Academic progress has been measured in terms of the quality of teaching, development of curriculum, innovative courses, achievement of students and contribution of teachers to teaching, publication and research.

Teachers are said to be the backbone of the educational system. They unconsciously set trends not just by what and how they teach but also through their attitude, behaviour and conduct with their students in the classroom and beyond. 7. ACADEMIC ACTIVITIES

Academic Activities of a university cannot be confined to classroom teaching. It extends to include seminars, conferences, workshops, invited talks and extra-mural lectures. These aspects introduce new ideas, play a significant role in the dissemination of knowledge and help in holistic development of teachers and students. They ensure the enhancement of the teaching-learning process in a structured manner.

The COVID-19 pandemic permanently and temporarily, impacted human life in immeasurable ways; academic functioning and practices are no exception. The first phase of lockdown in Odisha began on 22 March 2020, when Rama Devi Women's University, Bhubaneswar, was approaching the even semester. The mid-semester examinations were already over for postgraduate and undergraduate students of all departments. As per the order of the Department of Higher Education, Government of Odisha, the university entered into lockdown mode and all hostels were immediately vacated. In spite of the unforeseen challenges faced by all employers of the; University, academics, research, counselling and mentoring activities of Rama Devi Women's University has kept; the intellectual spirit of then varsity alive, notwithstanding the panic and the paranoia all around. Under the able stewardship, guidance, support and supervision of the Honorable Vice-Chancellor periodic review were conducted regarding course progress by online teaching methods such as cloud classes (Google Meet / Zoom/ Discord/ Microsoft Teams etc.). In addition, reading materials for students, student-teacher interactions for discussions, debates and addressing doubts (WhatsApp/ Edmodo/ Gmail etc.) as well as content development done by faculty members (using ppt/ pdf/ audio lecture/ video lecture/ e-content) were regularly monitored by the Vice- Chancellor during the lockdown period.

It is a matter of pride for all the staff and students of the university that the Vice-Chancellor, Prof. Padmaja Mishra, addressed the entire student's fraternity of Odisha on the 'Best use of lockdown time at home' on April 23, 2020, at Geeta Govinda Sadan, Bhubaneswar, on the invitation of Odisha Government's Chief Spokesperson on COVID-19 Shri Subroto Bagchi. She encouraged the student community to turn adversity of the lockdown into a golden opportunity by utilizing the time productively.

8. RESEARCH ACTIVITIES

Research activity of each department follows the academic model insofar as it is determined by the initiatives of scholars and academicians in developing their own practice-based projects or working in collaboration with other research groups. These collaborations mirror the increasingly multi-disciplinary and inter-disciplinary character of both basic and applied research. This feature is also reflected in research training, with many of the postgraduate studies programmes offered by the University being multi-or interdisciplinary in character.

PATH AHEAD

Like a whetstone, Rama Devi Women's University believes in continuously upgrading its pedagogical techniques, teaching-learning environment, teacher-student dynamics, curriculum and research centres to become a dynamic and emerge as a leading university in the field of women education in Odisha. An endless quest for learning is our aim. Keeping in mind the growing digital education needs during the pandemic Covid-19, Rama Devi Women's University plans to incorporate more online platforms of education, train teachers to be equipped in new technological demands and also encourage students to understand, appreciate and use more online modes of learning. Some new courses are in the pipeline. There are plans to introduce undergraduate and postgraduate courses by the Department of Education. There is a proposal for starting a course on Bachelor of Library and Information Science (BLIS) in order to given women students a chance to equip themselves with the knowledge of accumulation, organization, preservation and dissemination of information in a library.

In order to inculcate a spirit of innovation and research, a Centre for Excellence has been developed in the university. Various research projects on translation, life-writing, literature, society and gender shall be taken up by the Centre. Databases for growth of academic and research opportunities will be availed in the forthcoming academic year. Infrastructure-wise, the university is impressively spreading its wings to its new administrative and academic blocks, library and auditorium.
