Our Admirers

FROM THE PEN OF VICE CHANCELLOR

It gives me immense pleasure that the department of Life Science is publishing its annual Newsletter "MicroLife". The experienced teachers of the department of Life Science have put their efforts sincerely to groom their students not only to shine in the University but also in the outer world. The department has maintained the record of giving the best graduate to the University in the recent years. I congratulate the HOD Life Science Prof. C. C. Rath and all of the faculties of the department for their commitment and hard work. If everyone is moving forward together, then success takes care of itself. I wish all my best wishes to the newsletter.

From HoD'S Pen

I am delighted to declare that the Department of Biological Sciences is publishing its bulletin "MicroLife", specifying the different activities and achievements of our students. The department endeavors and works hard to generate self-assured experts adapted to the present-day work environment. As the head of the department, I would like to express my gratitude to all the personnel for their endless support and genuine efforts towards the department. I applaud all the members of the editorial team for effectively presenting this edition.

A Struggle Worth Remembering

" I have marvelled at how Smt.

Rama Devi and her girls have discharged themselves during the tour, which was undoubtedly pleasant and easy, had undoubtedly its trials. But these ladies have not known what fatigue is? Nowhere have I seen anything quite like what Smt. Rama Devi and her little band have been found to do so gracefully and so naturally. They have never needed or claimed any special privilege. Rama had quite a different perspective towards life. Seeing the hardship of the common men, she was driven by only one motive—to give selfless support and service to these people. -
