The word Yoga is derived from the root, 'Yuj' which means union. When sustained as a holistic practice, Yoga unites the body, mind, and spirit and helps each individual experience much-needed peace and harmony within and without! "Yoga is acknowledging the unity of the individual self with the universal self," stated Sri Sri Ravi Shankar, renowned Peace Ambassador and Founder of the Art of Living Foundation, in his address to the European Parliament on the Second International Day of Yoga in 2016. This 5000-year-old Indian body of knowledge of personal transformation has found new recognition in the modern era for its health and therapeutic benefits, as documented by various scientific studies. Yoga means balance, harmony and unity, universal balance, harmony of body, mind and soul and Unity of the individual consciousness with the cosmic consciousness.
